18 November 2020

Dear Lucy,

I am writing to express my full endorsement of the Telford Towns Fund Board plans for a new digital hub which is a collaboration between Telford College and Wolverhampton University, as it will be transformational for lives so many Telford residents.

Having visited Telford College to meet with apprentices in the Automotive Centre, and having worked closely with you in Parliament, I know how committed you and the College are to creating opportunities for young people locally. I wish you every success with the Towns Fund bid.

As Chair of the Education Select Committee, I am committed to aspiration and creating a ladder of opportunity for every young person, whatever their background. I believe these plans are an excellent model for other areas to follow and I congratulate all members of the Telford Towns Fund Board for bringing forward such creative and ambitious proposals.

Yours sincerely,

A handwritten signature in blue ink that reads "Robert Halfon".

Robert Halfon MP
